

WHAT IF YOU COULD...

- ...Share mission critical information in real-time with customers and suppliers?
- ...Eliminate errors and reduce manual transaction processing costs?
- ...Increase revenues while decreasing supply chain costs?
- ...Do all this with a single, reliable connection that you can leverage again and again?

www.forestexpress.com

ForestExpress is the transaction processing network for the paper and forest products industries. We provide e-business solutions that enable mills, merchants, converters, printers and end-users to automate and streamline the process of capturing, sharing and updating orders and their status. Leveraging our paper industry expertise we can assist you in analyzing your current order process workflow, identify improvements, and guide you through implementing more efficient business processes using the Internet.

ForestExpress provides integration, procurement and catalog content services that can help your organization realize the benefits of a more "perfect order" and drive tighter collaboration throughout your sales cycle and supply chain. As a result, daily interactions with customers and suppliers can be more efficient, more effective, and ultimately, more profitable.

Visit us in the Connections Café to learn more about how ForestExpress can help your organization realize the benefits of a continuous stream of "perfect orders."
